

BISCAY ROAD

2025 BISCAY ROAD RIESLING

Planted in 1981, the iconic Biscay Road Vineyard is one of only a few in the Barossa where the soil is unique, the cracking clay Biscay soils provide ideal vine growing conditions for red varieties.

Biscay Road Vineyard grows Shiraz, Cabernet Sauvignon, Grenache and Mataro across 64 acres on the edge of Tanunda and Bethany. It also supplies grapes to some of the most well-known wineries in the Barossa.

VEGAN FRIENDLY

VINTAGE CONDITIONS

With very little rain after a small rain event in October, it was evident early that everything would ripen quickly, with below average crops and small intense berries. It would be a more unusual vintage than normal.

Those who watered early established a healthy canopy and managed water carefully reaped the rewards of the warm days and warm nights and very dry outlook. The 2025 vintage is going down as the earliest and driest on record.

TASTING NOTES

Pale straw with green highlights looks youthful and bright in the glass. Vibrant aromatics of lime zest, elderflower, kaffir lime leaf and lemongrass. A core of citrus - lime juice, meyer lemon - complemented with nuances of granny smith apple.

The texture is fine and chalky, lending length and structure with a touch of talc-like phenolics. Shows finesse of the Eden Valley elevation with the elegant generosity of the Barossa floor.

FOOD MATCHING

Thai green curry or try with Grilled seafood like Prawns or Scallops
